WHAT LIVES WHERE? BIOMES & LIFE
What lives where? Biomes are the world’s major communities, classified according to the vegetation, climate and adaptations of organisms to that particular environment. Let’s learn about what makes these areas special and unique!

WHO LIVES WHERE? GEOGRAPHY, CULTURE & ARCHITECTURE
Who lives where? There are so many places where people live and different structures that house them. Let’s learn about the people, places, culture and architecture that makes each part of the world special!

WHO EATS WHAT? FOODS OF THE WORLD
Who eats what? There are many flavors of food and styles in which we prepare it. Let’s learn about the foods of the world, and the how and the why they are prepared the way they are!

HOW DO WE COMMUNICATE? LANGUAGES
How do we communicate? Yes, we use language every day, but there are so many unique languages that are spoken on our planet. Let’s learn about some of them, their importance and their history!

SCHOOL CLOSED WEEK OF JULY 1-5

JULY 8 – 12 WOW, THAT’S BEAUTIFUL! ART & ART FORMS
Art and culture go hand in hand. From the early drawings inside caves to the art that is displayed in modern museums, let’s learn about the amazing art and art forms of the world!

JULY 15 – 19 DIGGING UP THE PAST. PALEONTOLOGY & ARCHEOLOGY
What and who existed before us? There is so much to learn about our past, and the animals and civilizations that existed before us. Let’s talk about all the discoveries we have made by digging in the ground, and about the sciences of paleontology and archeology.

JULY 22 – 26 READY, SET, GO! SPORTS & GAMES OF THE WORLD
From the Olympic games of ancient Greece to the region-specific sports that are popular in the countries they are played, let’s learn and compete in some of those unique sports and games of the world.

JULY 29 – AUGUST 2 WHERE AM I? MAPS & THE GLOBE
Where am I? There are many possibilities, but with maps and globes we can discover where we are and what we are looking for. From cartography to treasure, maps have been an essential tool for many generations. Let’s talk about the importance of maps and the globe.

AUGUST 5 – 9 THE ORIGINS OF STORIES. MYTHOLOGY OF THE WORLD
What are the origins of the stories that are passed down from generation to generation? Many different areas of the world have their own unique explanations of many different things. There are also many similarities between these stories as well. Let’s talk about mythology and the stories, heroes and creatures that make them interesting!

AUGUST 12 – 16 THE INFINITE UNIVERSE, SPACE, STARS & THE SOLAR SYSTEM
Look up, what do you see? Let’s discuss everything we know and see, and learn about the space above us!
Our Toddler Summer Program’s main focus is “The Montessori Philosophy” with an emphasis on fun. Your child will enjoy a summer of hands-on activities while working on social skills, practical life skills, and independence. One practical life skill we work on and master in this program is Toilet Learning. Your child is not required to be potty trained when entering this program. We happily offer theme weeks that capture your child’s interest and curiosity. Our classroom is set up to meet the needs of your child through developmentally appropriate materials. This summer program is a great start to acclimating your child into a school setting. Enroll your child into this nurturing environment, which will lead to a life-long love of learning.

Make it a memorable summer for your child with hands-on, fun-filled, enrichment classes. Your child will take part in a variety of activities each week. Literature, song, dance, cooking, art projects and activities await. The excitement all happens in a familiar and safe environment—a Montessori classroom.

Consistent with the Montessori philosophy, classrooms are prepared with developmentally appropriate materials for the various needs of your child. This program provides an excellent opportunity for students to maintain and improve upon skills acquired during the preceding school year. Prior Montessori experience is not required as it also serves as an introduction for students joining the Montessori classroom in the fall.

Children will be encouraged to explore as they are supported on their personal journey to increase their independence, expand their social and emotional development, and maintain or strengthen their academic skills during the long summer vacation.

Your child will work with a highly qualified team of teachers. A certified Montessori teacher will be available to assist your child as they manipulate the beautiful Montessori materials. Additionally, early childhood specialists will manage the integration of the celebration focus area in the classroom and oversee the outdoor environment.

during weeks 1-6 the children will be learning about the continents and the countries that make our world amazing. Topics for each week can include: history, civilizations, cultures, celebrations, climate, wildlife, fauna & flora, geography & many more! There will be art projects, activities, video presentations, stories, books, music, dance, discussions to support and enhance these topics, and plenty of fun. Come learn about what makes our world wonderful!

June 3rd – 7th – Europe
June 10th – 14th – Asia
June 17th – 21st – Africa
June 24th – 28th – North America

SCHOOL CLOSED WEEK OF JULY 1-5

July 8th – 12th – South America
July 15th – 19th – Australia & Oceania

During weeks 7-9 the children will have more in depth exploration about the earth’s biomes. Biomes are categorized as the world’s major communities, classified according to the predominant vegetation and characterized by adaptations of organisms to that particular environment. This will be a fun way to learn about what exactly makes up these important areas of the world, and what plants and animals call these places home.

July 22nd – 26th – Forests, Rainforests
July 29th – August 2nd – Deserts, Grasslands & Tundra
August 5th – 9th – Oceans, Lakes & Rivers
August 12th – 16th – Summer Sendoff

Summer is almost over, let’s end it with some excitement! There will be many activities, games and art projects to wrap up the “dog days of summer” and get ready for the next school year. Don’t miss the fun while we send off summer with a blast!
